How to use this disc:

Place this CD in a caddy, insert into your CDTV and reset. Wait for Workbench™ to load and you can use the pointer to select the files on the disc you wish to access.

The Public Domain files are contained in a drawer called **PD**. Double-Click on this drawer to access the files.

IMPORTANT: Kickstart™ 1.3 users (CDTV only) will find their Workbench™ software in the 1.3 Drawer. TOOLS, SYSTEM, UTILITIES, MONITORS and PREFS directories in the main drawer will **not** work under Kickstart™ 1.3

Please note that some programs will not work on every version of the Amiga® Operating System, particularly early programs. We cannot help with technical queries involving problems with using individual public domain programs, and any problems should be taken up directly with the author(s).

Updates:

Regular updates to this disc will be available. Please return the registration card to be eligible for our cheap upgrades to this disc, and information on other CDTV titles we produce.

CDPD Public Domain collection

The CDPD Public Domain Collection for CDTV contains over 600 Megabytes of freely distributable software for the Amiga®. If purchased individually from Public Domain libraries the cost would easily outweigh the cost of this disk and the CDTV to run it on. This product requires a keyboard. Fully A570 compatible.

IMPORTANT: If you use this disc, you agree to be bound by the conditions of its use.
Please read the terms of the license for your use of Amiga Workbench™ 1.3 and 2.0.

We have used our best efforts to check that all software included on this disc is freely distributable software and that it complies with any limitations imposed by software authors. Programs on this disc were designed to work with the Amiga®. Some may not work on CDTV.

Parts of this compilation have been designated as SHAREWARE by their authors. You should comply with any conditions set out in the individual program, and where relevant, a shareware payment may be due and should be forwarded to the author. Please give your support to shareware and pay any fees due.
